

SUBTRACTING FROM -10 TO 10

Age Range: 5th Grade +

Learning: Subtract with numbers to 10 and answers from -10 to 10, strategy

- Each player will need 15-20 counters of their own color.

- Choose a subtraction you want to work out on one of the uncovered hexagons on the game board.
- Work out the answer in your head. You can use the number line to help you.
- Say the calculation and the answer.
- Your partner will check in their head (or using the number line).
- If you are right, you place a counter on the hexagon. Then it is your partner's turn. If you are wrong, you don't get to place a counter.
- The winner is the first person to complete an unbroken path of counters from the Earth to the Moon (path can go across, down, diagonally). See below.

- If you get an answer wrong, your partner can remove one of your counters from the board.

RACE TO THE MOON

SUBTRACTING -10 TO 10
