

CHRISTMAS CLASSIFY IT!

BINGO BOARD GAME #3

Classify It Game #3 is a good game for getting children to develop their understanding of different math vocabulary such as odd and even, equal to, greater/less than and multiple of. It also helps to develop quick recall of addition facts of 3 small numbers.

Age range: 3rd Grade +

Number of players: 2-3

Learning:

- Adding up the numbers on 3 dice
- Odd and even numbers to 18
- Vocabulary:
 - o Greater than & Less than
 - o Equal to ... or ...
 - o Multiple of ...

You will need

- A set of 12 cut out counters for each player
- 3 dice. You can always roll 1 dice three times and write down the numbers if you do not have 3 dice.

Instructions

- Each player takes turns to roll the dice and add them up. The player then chooses one classification hexagon on the board which matches the total they have rolled. They cover this hexagon up with a counter.
- If a person cannot find any hexagon which matches their number, they pass the dice on to the next player.
- The game finishes when all the hexagons are covered up.
- The winner of the game is the person who manages to cover up most hexagons.

Example of play

- o Player 1 rolls a 4, 5 and a 2 which makes a total of 11. Player 1 chooses to cover up the 'Greater than 10' hexagon with a counter.
- o Player 2 rolls a 4, 3 and a 6 which makes a total of 13. Player 2 chooses to cover up the "Between 11 and 17" hexagon.

Variations

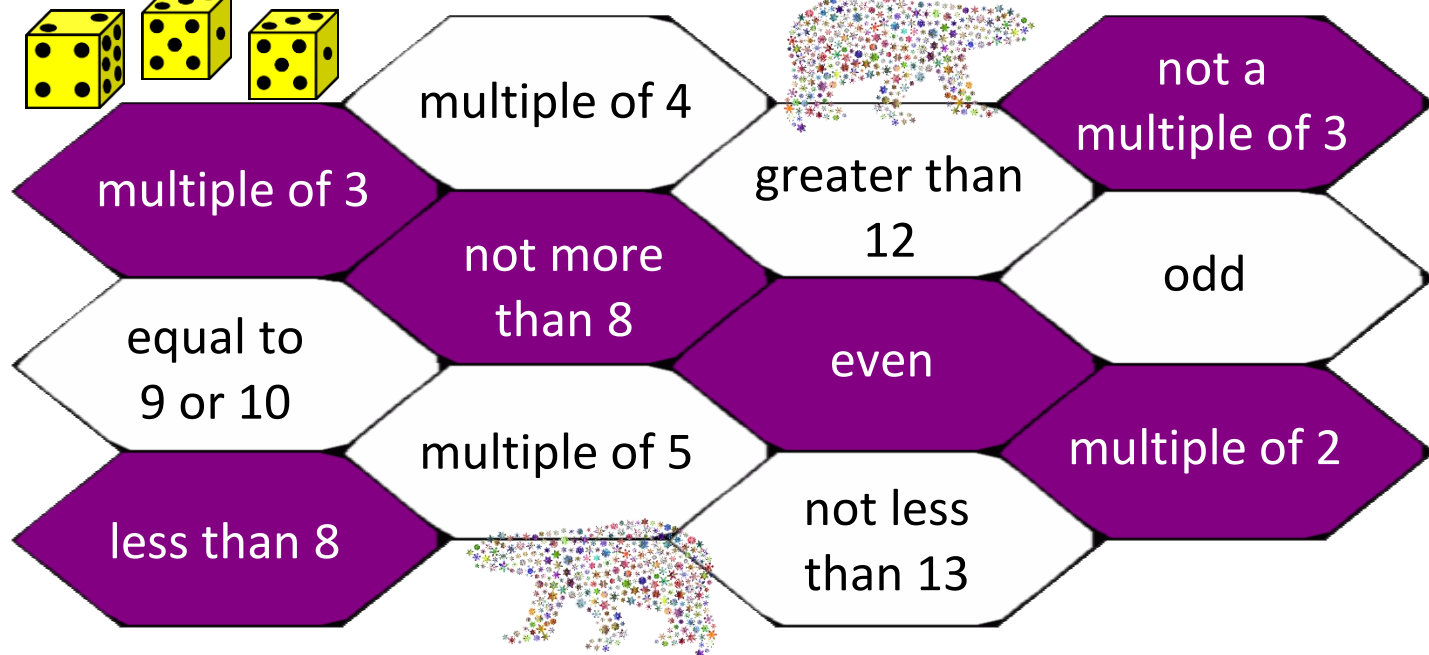

- Use a 20-sided dice instead of three 6-sided dice
